ENDURO ABOVEGROUND WATER TANKS

Choose quality and style with our range of premium corrugated tanks, designed for superior performance and peace-of-mind. These ultra strong tanks are engineered to last and will complement every landscape with their contemporary look.

10 REASONS TO PURCHASE A PROMAX ENDURO TANK

1

Choose from 7 of NZ's favourite tank colours.

2

Strong one piece Promax moulding process.

3

We'll quickly and efficiently meet your delivery requirements.

4

10,000, 25,000 and 30,000 litre tanks delivered free to your property (this may exclude certain areas and outer Islands).

5

4x Plumbing inlet/outlet panels and large 600mm manhole with lid provided.

6

Corrugated sidewalls for superior strength and toughness.

This unique feature allows Promax ENDURO tanks to be buried 1 metre into the ground and still retain a 20 year warranty.

7

All Promax tanks comply with Australia and New Zealand Potable Drinking Standard with certification to AS/NZ 4766 - Polyethylene storage tank standard.

8

Includes Industry Standard BSP female outlet/s.

9

Clean, pure fresh water, with no tainted taste, fully UV stabilised.

10

All Promax tanks can be purchased through your local reseller.

**IN GROUND TO OVERCOME
HEIGHT RESTRICTIONS**

Big ENDURO Aboveground Tanks

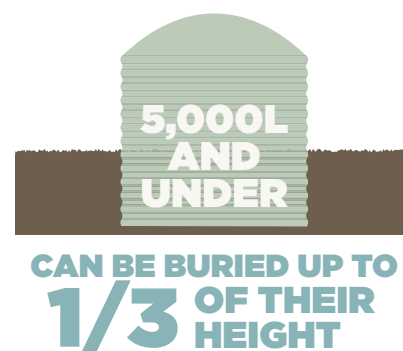

- Big ENDURO Aboveground tanks range from 10000L to 30000L capacities
- Corrugated side walls for extra strength
- One piece construction - reducing maintenance and costs
- Bury 1 metre in ground to overcome height restrictions
- 20 Year Promax Warranty - providing you with peace of mind
- Multiple inlet/outlet panels - saving you installation time
- 600mm Manhole
- Clean, fresh, untainted storage for drinking and household use
- Threaded base outlets
- Choice of 7 colours to suit your surroundings

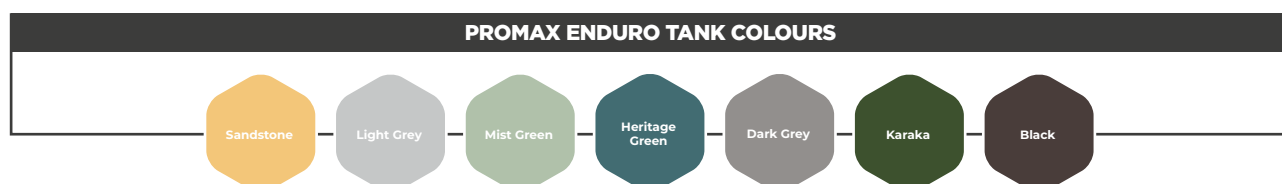

Small ENDURO Aboveground Tanks

- Small ENDURO Aboveground tanks range from 450L to 5000L capacities
- Corrugated side walls for extra strength
- Maintenance-free one piece moulded construction
- Easy installation with multiple inlet/outlet opportunities
- Clean, fresh, untainted storage for drinking and household use
- 1x threaded base outlet
- Special outlets available on request
- Choice of 7 colours to suit your surroundings
- 450mm manhole

PROMAX ENDURO TANK COLOURS

XPRESS ABOVEGROUND WATER TANKS

XPRESS Aboveground Tanks are made from high-grade polyethylene plastic and provide renowned Promax quality at an affordable price.

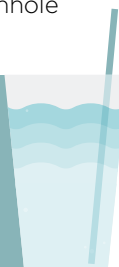

XPRESS Aboveground Water Tanks

- 2500L - 30000L capacities
- One-piece construction - reduces maintenance and costs
- Threaded 25mm - 50mm outlet at base for quick and easy setup
- Choice of two popular colours
- Complies with AS/NZ Standards for clean fresh drinking water
- 20 Year Industry Warranty on 10,000, 15,000, 25,000 and 30,000 litre tanks
- 450mm - 650mm Manhole

SEPTIC TANKS

When it comes to septic tanks in New Zealand, there is no room for compromise. Hygiene and safety are paramount, and the structural integrity of the tank must be flawless.

That's precisely what you get in every Promax septic tank.

Our 'Single Stage' filtered septic tanks are designed by geotechnical experts and manufactured to meet the stringent standards for New Zealand septic tanks. Each heavy-duty ribbed tank is fully tested to withstand ground and water pressure. For all its strength, it is lightweight, meaning you'll save on transport and installation costs. As you'd expect, every Promax septic tank is internally plumbed up to the outlets.

UXST02000

*North and South Island products differ

Septic Tanks

- Very strong heavy-duty one-piece ribbed construction
- Lightweight means savings on transport and installation costs
- Polyethylene will not corrode or rot
- Includes Taylex Outlet Filter
- Easy to install using 100mm inlet & outlet

UXST03000

UXST04000

Minimum Septic Tank Operational Capacities in Litres
As per AS/NZS 1546

Type of Wastewater	Persons		Bedroom	
	1 to 5	6 to 10	1 to 3	4 to 6
All-Waste	3,000	4,500	3,000	4,500
Greywater Only	1,800	2,700	1,800	2,700
Blackwater Only	1,500	2,500	1,500	2,500

Note:

1. Capacities exclude cold climate effects and food waste disposal unit requirements: these need to be subject to specific design.
2. Local authorities may have different minimum requirements.

UXST05000

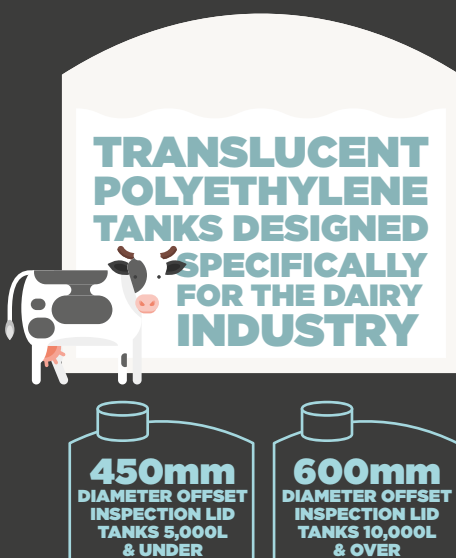

*North and South Island products differ

COLOSTRUM TANKS

Made entirely from UV-stabilised, food-grade polyethylene. Promax Colostrum Tanks are translucent making it easy to monitor quantities.

Stirring and inspection are simple with the easy-access inspection lid.

Colostrum Tanks

- Translucent polyethylene tanks designed specifically for the dairy industry
- 50mm outlet for easy access
- 450mm - 600mm diameter offset inspection lid
- Certification to AS/NZ 4766 - Polyethylene storage tank standard
- CT1010000NA - Single tie down / lifting point for easy manoeuvrability
- CT1005000NA / CT1003500NA - 2 tie down / lifting points for easy manoeuvrability
- CT1002500NA / CT1001000NA - Tie downs / lifting points for easy manoeuvrability

MOLASSES TANKS

Molasses tanks on New Zealand farms and in food-related businesses need to be solid and rigid.

They have to handle the extra weight and viscosity of bulk molasses, and that's what Promax tanks are designed and manufactured to do.

No matter what you choose, and no matter the size, you can rest assured that your molasses storage is taken care of and in the strongest, most secure way.

MOLASSES
TANK RANGE FROM
4,000L
TO
30,000L
CAPACITIES

Molasses Tanks

- Side-mounted sight glass for easy volume monitoring
- Heavy-duty UV treated polyethylene
- Strong one-piece corrugated construction
- NZ water standards compliant

Promax Molasses Fitting Kit

This fitting kit includes everything you need to get your molasses tank ready to use:

- 1 x 50mm brass ball valve
- 1 x 80mm brass ball valve
- 1 x 80mm male cam lock c/w dustcap

TOOL BOXES

Taska Tool Boxes feature the popular angle design to match modern utility fit-outs while still offering a good sized storage area.

Promax Taska Toolbox

- Available in small or large sizes
- Will never rust or rot like steel or plywood
- Lockable to keep your valuable tools safe
- Designed to be totally weatherproof

TASKA TOOLBOX COLOURS

Promax Pump Covers

Their versatility, durability and low cost make Promax Pump Covers the popular choice with plumbers.

- Well vented to prevent pump overheating
- Two sizes that fit most common pumps
- Easy to install in most environments
- Strong self supporting pump base

PROMAX PUMP COVER COLOURS

RAIN HARVESTING ACCESSORIES

More and more New Zealanders are harvesting more and more rain. We're here to meet the increased demand for rain harvesting tanks and accessories.

If you want to capture every precious drop, we'll help you find the tank that best suits your property.

To help you get the most out of your tank, we also have all the accessories you'll require. They include pumps and covers, tank level indicators, fittings, fire coupling kits, leaf eaters and everything else you need to keep your rainwater storage safe, secure and clean.

Promax Tank Fitting Kit

ACTFFITKIT

- 2 x Promax Pipe seals - 90mm
- 1 x Reducing nipple 50mm - 25mm
- 1 x Promax Plastic Ball Valve - 25mm
- 1 x Promax 25mm Hose Tail
- 1 x 2m Flexi suction delivery hose 25mm
- 1 x roll Thread Tape

Promax Tank Balancing Kit - 50mm

ACTFTBK050

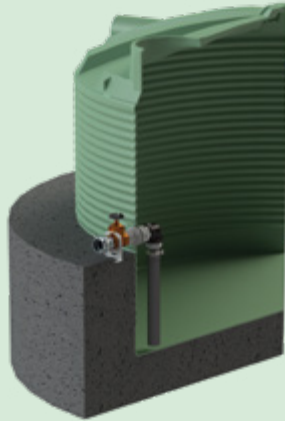

This kit contains all the 50mm fittings required to install a water balance pipeline between two tanks. This allows them to operate as one tank. This kits also includes one isolating ball valve.

Promax Buried Single Tank Fire Service Outlet Kit - 100mm

ACTFFSOKITB100

- Long lasting Brass Gate valve and Coupling
- 100mm Fire Service Standard Size
- Meets New Zealand Fire Service Standards
- Easy to Install
- Maintenance free

Promax Buried Dual Tank Fire Service Outlet Kit - 100mm

ACTFFSOKITDB100

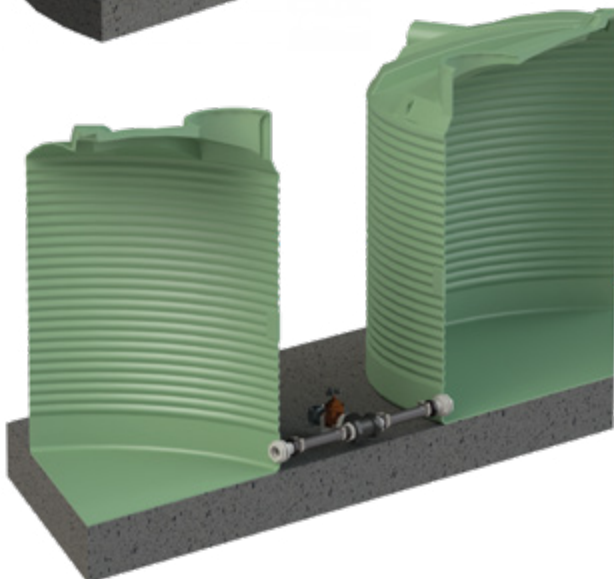

- Long lasting Brass Gate valve and Coupling
- 100mm Fire Service Standard Size
- Meets New Zealand Fire Service Standards
- Easy to Install
- Maintenance free

Promax Fire Service Outlet Kit - 100mm

ACTFFSOKIT100

- Includes: 100mm Tank Fitting, Brass Gate Valve, Galvanised Support Bracket & Approved Fire Coupling
- Meets New Zealand Fire Service Standards
- Easy to Install
- Maintenance free
- Includes: Adjustable Galvanised Steel Support Bracket 150mm-250mm Height.

Promax Dual Tank Fire Service Outlet Kit - 100mm

ACTFFSOKITD100

The Dual Fire Outlet Kit is required when you wish to interconnect and draw water from both tanks at the same time.

Promax Tank Level Indicator

ACRHTLI

Running dry can seriously damage your pump so it's important to know when water levels are low. Suitable for any type or size of tank, the Tank Level Indicator, is an essential part of your water management.

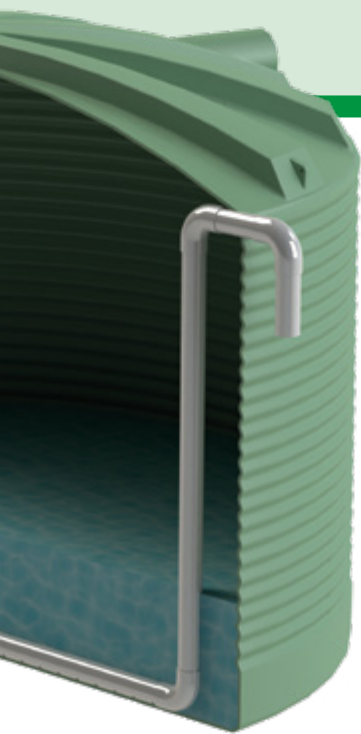

Promax Floating Outtake - 25mm

ACTFFLOUT025

This simple kit attaches to your tank outlet and floats on the surface of the water within your tank. It draws only the cleanest water from your tank, just below the surface.

- Also available in a 50mm option

Promax Tank Vac

ACTFTVACLGE

Protect your water supply from contamination with the easy to install Promax Tank Vac.

It gently cleans the bottom of your tank, where unhygienic debris can settle, to improve your water quality.

Promax Frost Protection Kit - 50mm

ACTFFPK050

The Promax frost Protection kit is an internal riser for a ballcock. Internally plumbed it is more insulated from the elements and therefore less likely to freeze solid and stop working.

Promax Water Pump Kit 50 LPM

ACPUK50LM

- 1 x Grundfos Pump
- 1 x Small pump cover
- 2 x Promax Pipe seals - 90mm
- 1 x Reducing nipple 50mm - 25mm
- 1 x Promax Plastic Ball Valve - 25mm
- 1 x Promax 25mm Hose Tail
- 1 x 2m Flexi suction delivery hose 25mm
- 1 x Roll Thread Tape

Promax Corrugated Tank Outlet - 50mm

ACTFTOC050

This 50mm Tank Outlet comes complete with the corrugated rubber gasket kit suitable for use on Promax corrugated tanks.

Promax Tank Outlet with Corrugated Flange 25mm

ACTFTOC025

- This 25mm Tank Outlet comes complete with the corrugated rubber gasket kit suitable for use on Promax corrugated tanks.
- Recommended Holesaw Size - 34mm or 1 3/8"

Promax Water Filter & UV 130 LPM

ACRHFLTUV130

Promax Water Filter & UV 75 LPM

ACRHFLTUV075

- 10 Year warranty - aluminium housing/stainless chambers
- 3 Year warranty on filtration units - 20/1 microns
- Easy and fast "plug and play" installation
- Complete eco-friendly and chemical free process
- Anti-tamper and childproof lockable controller lid
- Double O-Ring filter housings with no leaking
- Lamp count-down timer and failure alarm (audible and visible)
- Longer filter life with very easy replacement

DIESEL TANKS

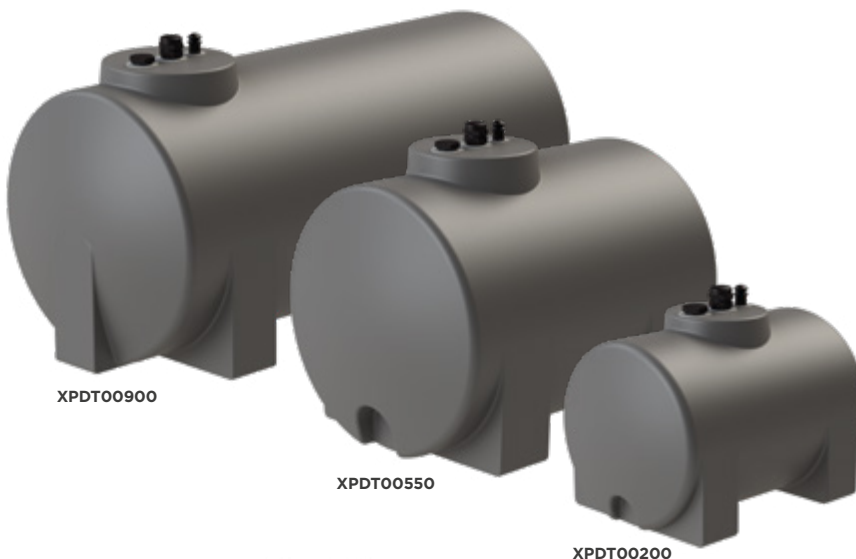

The XPRESS range of bare diesel tanks manufactured by Promax feature a 50mm filling cap and 20mm breather.

XPRESS Diesel Tanks

Tough diesel grade polyethylene construction for years of maintenance-free life.

- Available in 200L - 1,000L capacities

The Promax Bunded Fuel Storage Tank offers protection from leakage and overfilling. With a 110% secondary containment, it provides safe diesel storage.

Promax Bunded Diesel Tank 500 Ltr

Diesel Grade UV stabilised LDPE – Tough and durable.

- 450mm Hinged Lid – Easy access
- 110% Bunding – Compliant

Keep your fuel cleaner and reduce the risk of engine damage with Promax's purpose-built diesel tanks.

ENDURO Diesel Unit 400 Ltr 40LPM 12v

ENDU400400

- 4 metres of 20mm delivery hose with swivel connector
- Automatic shut-off nozzle
- 40L/min flow diesel pumps
- Padlockable hinged cover
- Ball Baffles for surge protection
- Innovative splash-resistant breather
- Easy-clean suction strainer

ENDURO Diesel Unit 200 Ltr 40LPM 12v

ENDU400200

- Lightweight and designed to make the most efficient use of space - have your fuel where you need it, whenever you need it!
- Kits come with hosing, power cables, nozzles and pumps included - making them ready to use
- Auto shut off nozzles prevent accidental spillage

Also available in 600L and 1,000L capacities

TRANSPORT TANKS

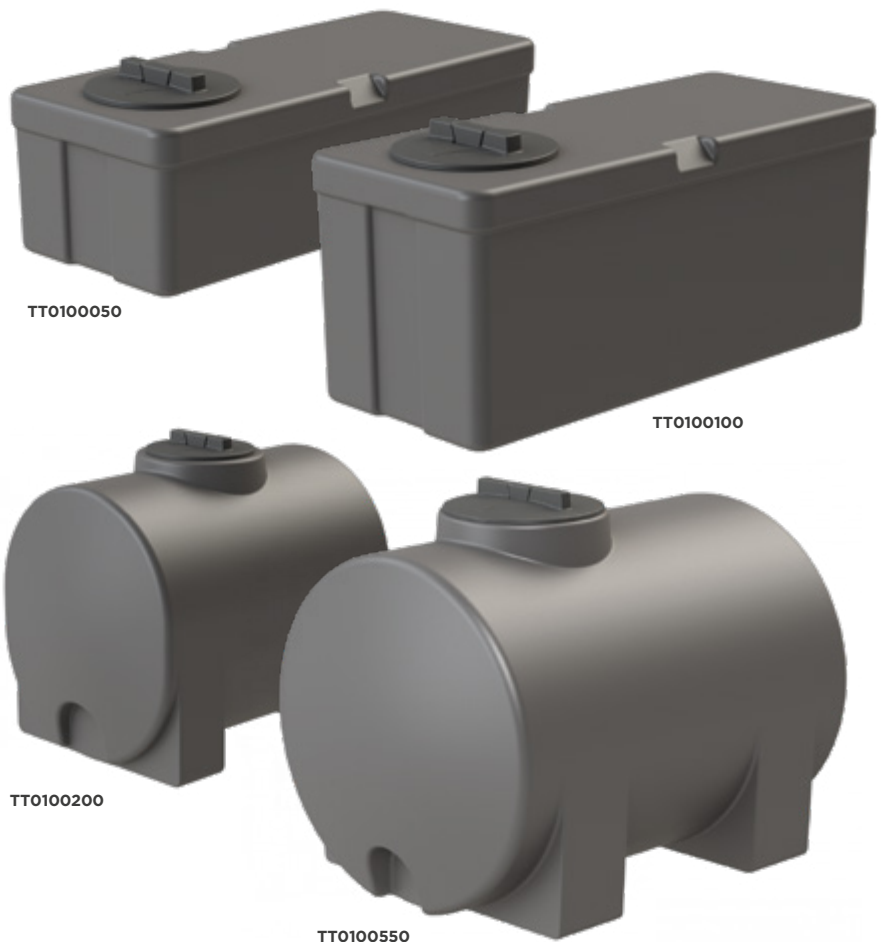

The Promax range of Transport Tanks deliver real strength through clever design.

Promax makes it easy for you to take liquids from Point A to Point B safely and efficiently. We boast an incredible range of transport tanks in all shapes and sizes for water and other liquids, as well as every accessory you need.

Our liquid transport units have been manufactured to deliver unmatched flexibility and economy for transporting liquids. Our specially formulated polymers combine to eliminate rust and stress-cracking problems and significantly reduce weight.

Promax Transport Tanks

- 5 year warranty
- UV Stabilized to withstand the elements for a long, trouble free life
- Vented lid to make filling easy
- Food Grade: NZ Standard AS2070:1999
- 3/4" / 20mm tank outlet
- The full Promax Transport Tank ranges from 50 - 15,000 litre capacities

DRAINAGE

Promax Culvert

These tough high-quality ribbed polyethylene culverts offer many advantages over traditional concrete materials.

- Available in 330mm to 1200mm internal diameter and 2.7m or 5.2m lengths
- Heavy duty ribbed polyethylene construction for added assurance
- Lightweight for easy transport
- Easy joining and installation method
- No damage from rust or corrosive materials
- Very strong and highly resistant to impact and shock
- The inherent flexibility makes it ideal for more difficult terrain

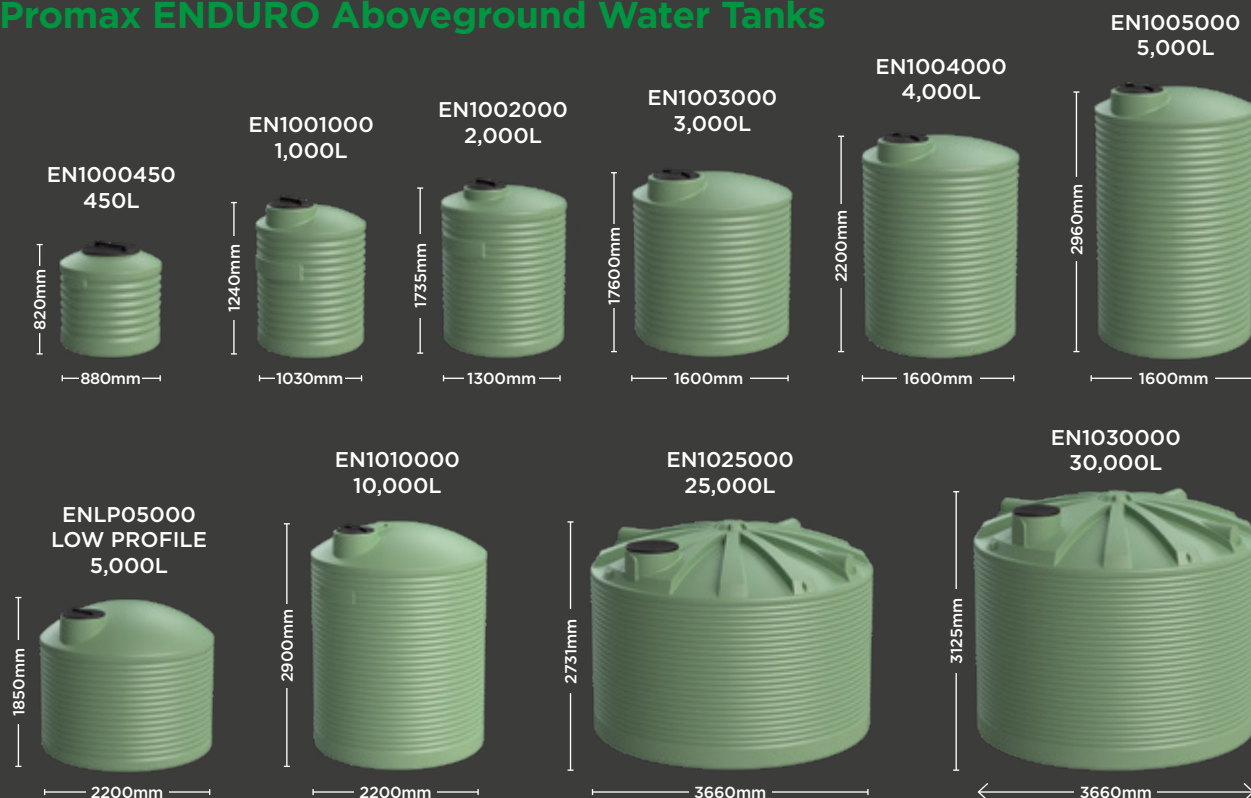

Promax Fluming

This lightweight half circle polyethylene culvert is ideal for water drainage management to prevent erosion and meet environmental concerns.

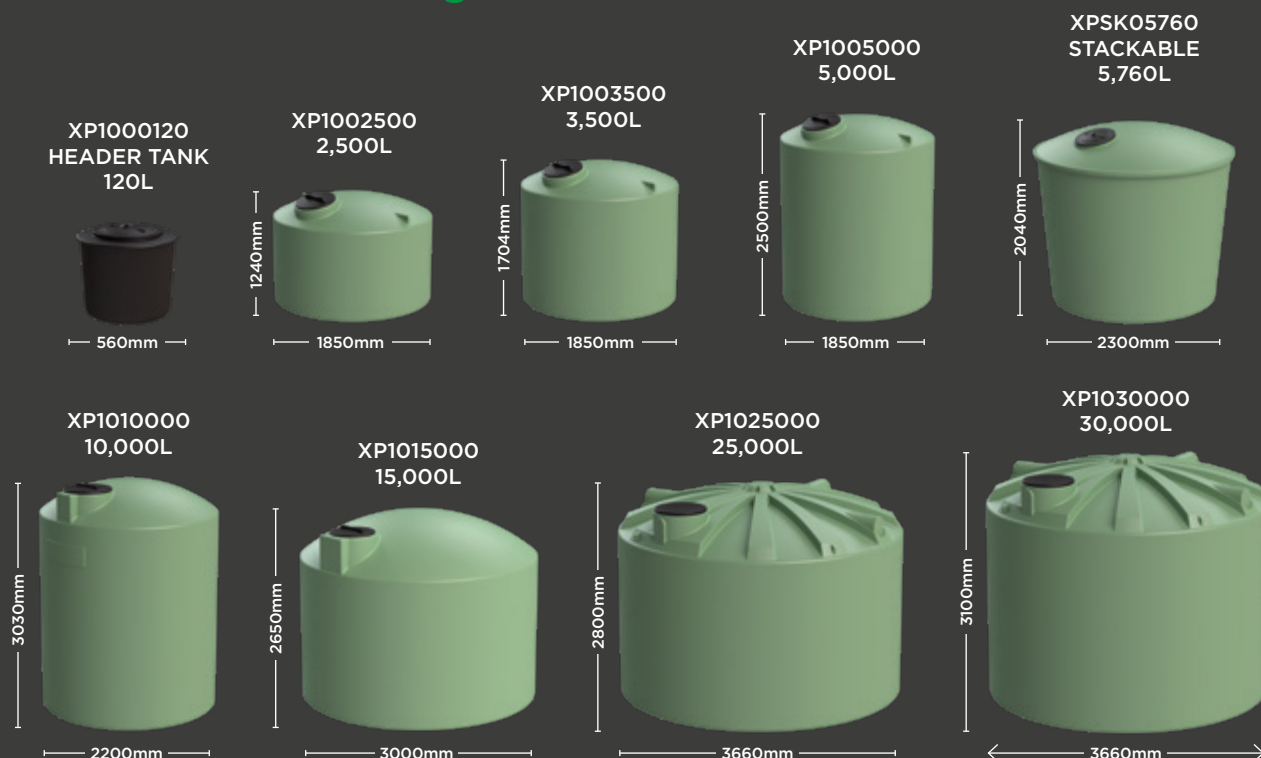

- Heavy duty ribbed polyethylene construction
- Easy installation
- Ideal for uneven contours
